

DRETTMANN

A CLASS OF ITS OWN

Drettmann Yachts - A CLASS OF ITS OWN.

For Claudia and Albert Drettmann, no two yachts are the same – and each one is a labor of love. With a great deal of experience and passion, they personally fulfil individual requests from customers around the world. They know that a yacht is much more than a dream comes true for its owner – it's a philosophy of life.

Like most success stories, the adventure of Drettmann began in a garage – with a modest firm selling pre owned boats. But a worldwide success developed quite soon. With the construction of the Elegance- and Bandido yacht series and under the guidance of the family business with its 48 years of history no fewer than 1.500 new yachts has been built and about 10.000 yachts has been traded until today.

In 2017, Drettmann expanded its portfolio as the exclusive and experienced sales partner of Gulf Craft's multi award winning yachts for Europe, Russia and Ukraine – another important step towards expansion and internationalization for the Bremen-based company.

Gulf Craft is one of the leading global players in the industry and ranks among the top 10 worldwide. The shipyard is particularly known for its Majesty and Nomad yacht series.

The Drettmann Headquarter

The Headquarter of Drettmann is not only the company location but also the heart of the enterprise. And this heart beats for anything connected with maritime issues in general and for a good design in particular. This comes immediately apparent when entering the generously designed Drettmann showrooms. An almost overwhelming selection of materials, woods, fabrics, colours and accessories competes with the beautiful view on to the Weser.

Shipbuilding

Every single yacht is an individual project that we look after from start to finish with the utmost care and attention to detail. To achieve this, our engineers and designers work hand in hand with our shipyards to fulfil the future owners' wishes in the best possible way. That way, we make sure that every craft is unique and a personal experience.

Quality

We see it as our duty to build nothing but yachts that meet the highest quality standards. From the structure to the interior fittings, we insist on the best craftsmanship and top-grade materials. The whole construction process is accompanied by numerous quality-control stages.

After Sales

Our concept of quality goes far beyond the naming ceremony. Even the most stable yacht needs annual servicing and maintenance, and our extensive after-sales programme takes care of this.

Gulf Craft has served the aspirations of passionate boating enthusiasts for more than three decades. The award-winning manufacturer is one of the world's leading superyacht shipyards, a merit it has achieved through continuous investment in research and development.

Founded in the Emirates in 1982, Gulf Craft continues to redefine the on-water living experience with its wide variety of premium craft, ranging from 27 feet to 200 feet in length. Deploying advanced technology, powerful engineering, timeless design, and world-class craftsmanship, Gulf Craft builds each innovation to create memorable cruising experiences for its discerning clientele, transforming travel by sea into a journey worth indulging in.

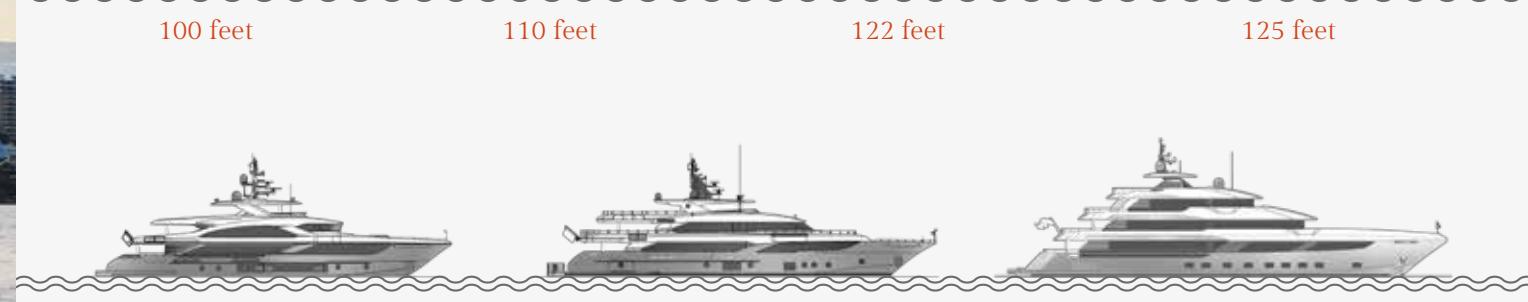

Superyacht Collection

The yachts in the Majesty series measure from 48 to 200 feet. This outstanding range features luxurious leisure craft as well as fully-edged superyachts. In 2017, the Majesty 155 was named “Best Asian-Built Yacht” in the Asia Boating Awards, and the Majesty 100 was unveiled as the company’s first sky-lounge superyacht.

Majesty Yachts impress with their size, elegance and equipment.

Bandido Yachts

Technically superb, suitable for voyages of discovery on the high seas yet luxurious and sporty – the Explorer yachts in the Bandido series ensure a unique yachting experience. Measuring from 80 to 148 feet, the Bandidos boast an innovative pod drive, an impressive beach club and lots of space.

The sea has always held fascination for people: infinite space, sun, wind and freedom.

Driven in progress

As a rule there is a little room to move in already optimally matured products. Here the new Bandido Explorer yacht generation clearly represents the exception.

It shows a revolutionary further development of comfort, which is based on a technical innovation, the 360 degrees rotatable diesel electric POD drive.

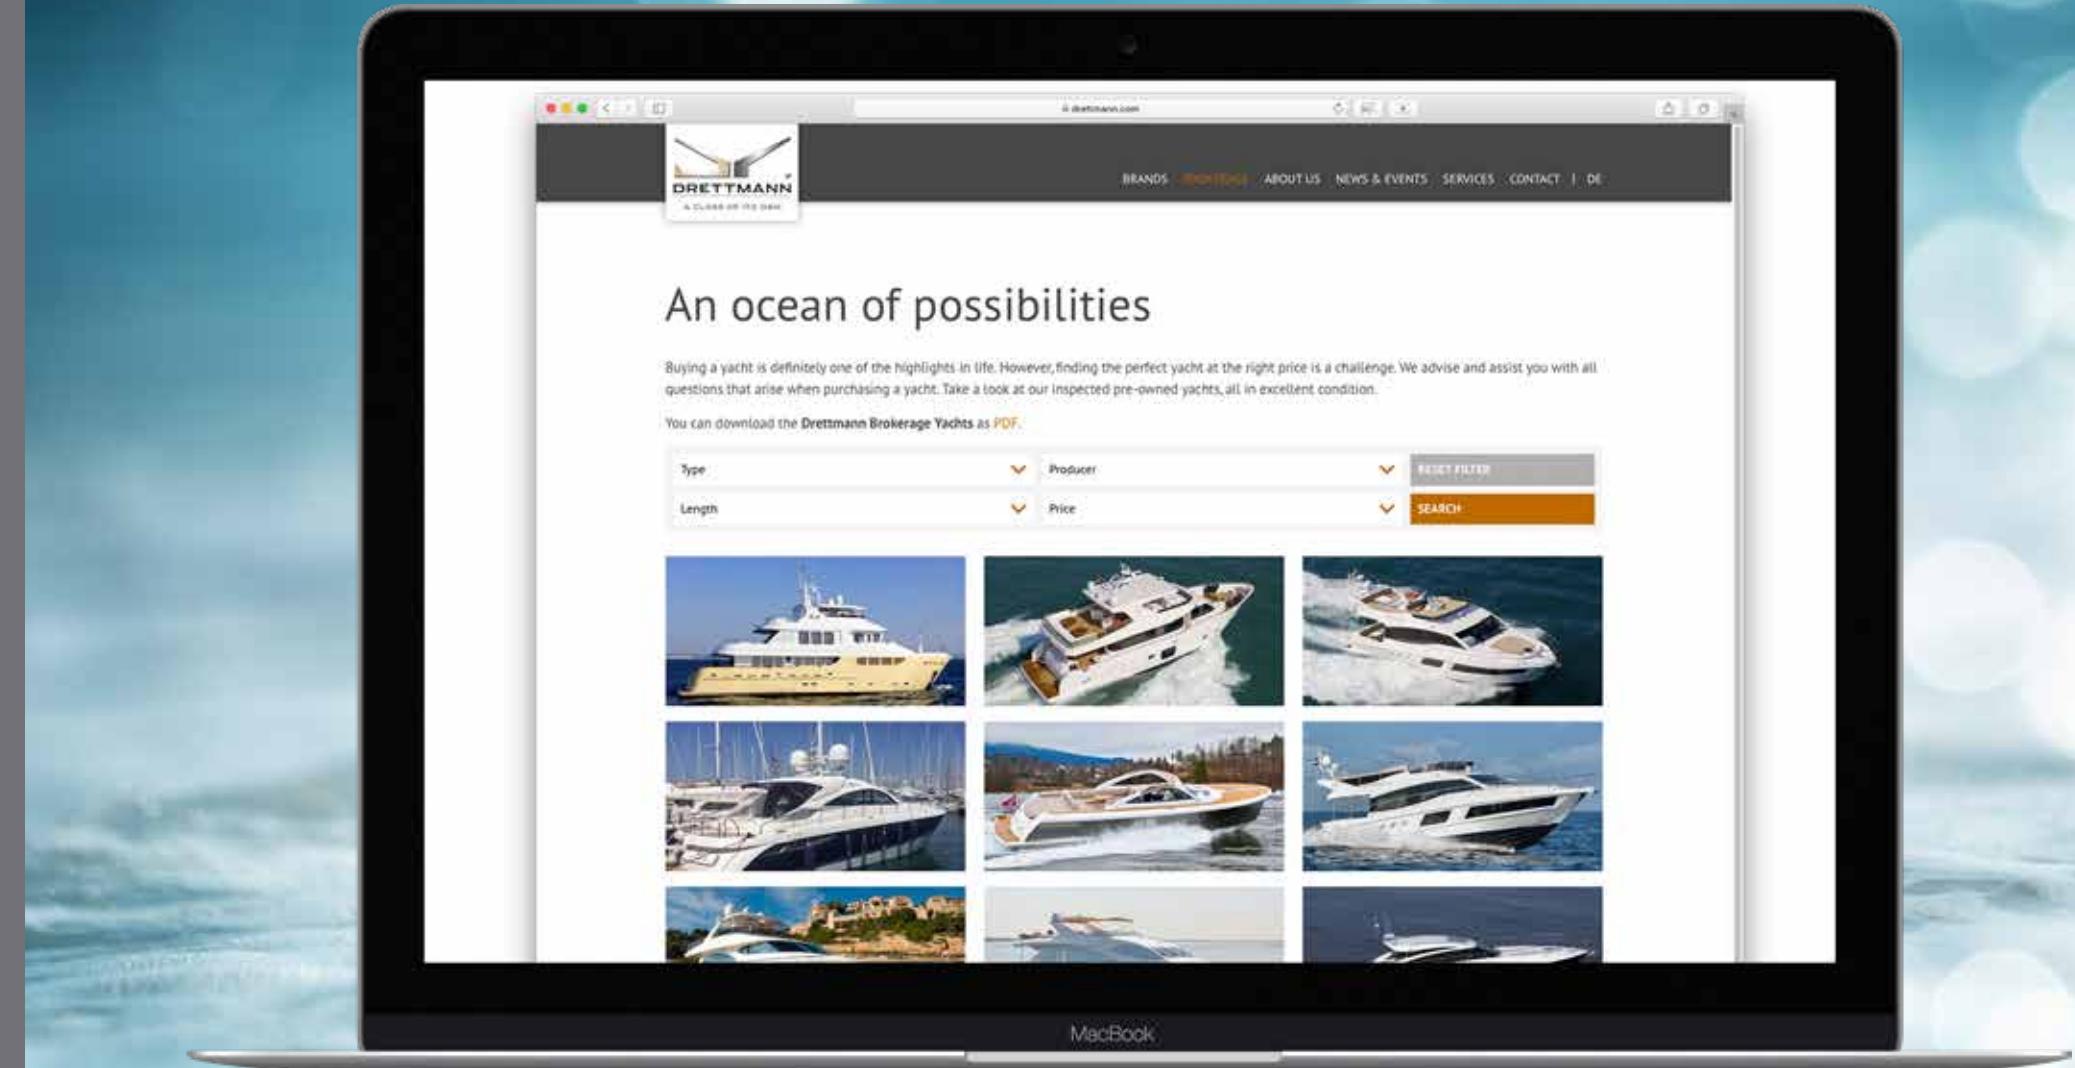

„On our yachts, you can see, feel and experience something truly special. Every time.“

Claudia Drettmann

An ocean of possibilities

Buying a yacht is definitely one of the highlights in life. However, finding the perfect yacht at the right price is a challenge. We advise and assist you with all questions that arise when purchasing a yacht. Take a look at our inspected pre-owned yachts, all in excellent condition.

drettmann.com

A fine selection

Life on a yacht may be absolutely exiting, spontaneous and unusual. Completely distinct, however, is the process of buying a yacht: here everything should be planned, clear and supported by competence and also convince by the product and service. These are the promises with which Drett-mann have been carrying out a brokerage close to the market and the customers for many years. This offers the customer a broad spectrum of performance and a lot of added value.

Looking
forward
to you!

For us, no two yachts are the same. With a great deal of experience and passion, we personally fulfil individual requests from customers around the world. We know that a yacht is much more than a dream come true for its owner – it's a philosophy of life.
