

SECOND-HAND – BUT FIRST-CLASS

Drettmann Yachts offers a wide selection of pre-owned yachts, technical service and comprehensive consulting.

Wouldn't you love the chance to rule the waves from on board your own yacht? This is a cherished dream for an increasing number of people, and in many cases, one that can actually come true if they opt for a pre-owned vessel. And Drettmann Yachts in Bremen makes the decision particularly easy for its customers. Under the management of Claudia and Albert Drettmann, this company has sold good quality, thoroughly inspected pre-owned vessels – from dinghy to yacht – at attractive prices for many years. In a year, no fewer than 60 boats have already changed hands – an impressive figure that is due not only to the competitive prices. Drettmann customers appreciate first and foremost the company's commitment and its comprehensive range of boat services, whether minor repairs or entire, top-quality refits.

Based on their years of experience, extensive maritime expertise and sure instinct for second-guessing the customer's wishes, Claudia and Albert Drettmann sell boats which have undergone complete refurbishment at the yard, from replacing the technical equipment to revamping the appearance. „Although we aim to offer maximum flexibility, we also attach great importance to providing our clients with responsible advice, good service and being a reliable partner in every respect,“ explains Albert Drettmann.

Would-be skippers can be sure of choosing the right vessel for their particular needs by viewing the selection of up to 80 boats „live“ at the company's spacious premises in Bremen-Hemelingen. „We are delighted with the exceptionally high demand this year, although it has naturally led to a shortage in supply. Accordingly, we also welcome customers who are planning to sell a boat. They can contact us at any time to arrange an appointment,“ says Claudia Drettmann, commenting on the positive business trend.
