PRESS RELEASE

Drettmann Yachts is proud to sponsor the **2016 Hampton Classic**. Claudia and Albert Drettmann and the Drettmann Yachts USA team are looking forward to attend the weeklong event in August, and support this year's festivities. We hope this is the beginning of a long and successful relationship with the Hampton Classic, an equestrian event recognized worldwide for its long standing tradition of excellence.

With 45 years of experience, close personal contact with customers and leaving nothing to chance, it is no coincidence that the German family enterprise enters the market of large yachts and super yachts.

The bar is set high as the Bremen based Drettmann Yachts has delivered over 1500 new yachts and enjoyed great success.

At the beginning of development, there were several critical questions that had little to do with technical details. On the contrary, it was important to determine how the demands of the customers have changed, which innovations should be integrated and how to create additional value.

The results have been realized with the new Drettmann Motor Yachts line (DMY) and the new Drettmann Explorer Yachts line (DEY).

With lengths from 21 to 37 meters, the Drettmann Motor Yacht offers new room concepts, more freedom for life on board and fantastic solutions like the Beach Club. Now, life can take place on the water, with a bar, extendable platforms, and storage for tenders and toys. The salon on the main deck is open on three sides and cleverly removes the border between the interior and the deck.

The exterior still has the distinctive separation of the hull and structures, hallmark of a Drettmann Yacht.

The available space is maximized. The lines are timeless, classic and elegant. The same themes were continued in the interior design: clear design lines with thought-through concepts, emphasizing the layouts that provide both owner and guests with generous room.

"We created the dichotomy between a maritime experience and, at the same time, the feeling of living in a spacious villa in the country. All aspects of life on board, whether water sports, relaxing, celebrating, or an elegant dinner with friends, take on a new dimension," explained Claudia and Albert Drettmann.

With the presentation of the Drettmann Explorer Yacht (DEY), the German yacht makers impressively demonstrated that they completely understand what is important to the customer: timeless elegance combined with modern technology and the highest quality.

The Drettmann Explorer Yachts, with lengths from 24 to 45 meters, present themselves with a modern appearance full of innovations that set new standards in their class. These extremely seaworthy ships are easy to maneuver and are fuel-efficient with their diesel - electric POD-drive. At the same time, a completely new room concept was undertaken in a ship of this size, and aft, is a generous Beach Club with sauna and integrated lounge area.

“The new drive is based on proven technology, used for the first time worldwide on a yacht of this size. That means a greater driving enjoyment, easy steering, less maintenance, and improved energy efficiency. These are some of the many great features that we are proud of”, explains Claudia Drettmann, at the world premiere of the 24m long Explorer, at the Düsseldorf Yacht Show in January 2016.

With the use of diesel-electric drives the weight distribution is optimized and more variability in the internal division can be gained.

The observer immediately notices the masculine exterior design and the skillfully complementing interior. The colors and materials are coordinated and look timelessly modern and stylistically confident, without sacrificing function or comfort. The choices enchant both followers of classical interiors and those who favor clear lines.

Depending on the size of the DEY, the range is several thousand miles. Installed systems and equipment that one would normally only find on larger yachts or professional navigation, combined with the perfect use of space on board, make the Drettmann Explorer ideal yachts for worldwide travel – which is exactly what explorers should do.

For more information about our company and yachts please contact Drettmann Yachts USA at (201)968-8750 or visit us online at www.drettmann-yachts.com or www.drettmannyachtsusa.com.
